A Professional Search Experience

In industries where growth opportunities have been accelerated by technological advancements, competition for talent is more intense than ever.

Outdated talent attraction strategies can no longer secure your status as an "employer of choice" among the best and brightest in the sector.

Companies that will thrive in this ever-changing landscape are those whose hiring processes and technologies promote efficiency and transparency, placing candidate experience at the heart of their operations.

Our Philosophy

At Checked Recruitment, our primary aim is to facilitate the creation of enduring working relationships between our candidates and clients.

Each stage of our process has been meticulously designed to provide an efficient and cohesive hiring experience for both employers and candidates.

Our professionalism and thoroughness empower us to deliver long-term hiring guarantees on every assignment, alleviating the risks often associated with new hires.

Who Are We?

Since our inception, Checked Recruitment has focused entirely on becoming a strategic, quality-driven recruitment partner to our clients.

We actively limit the number of roles we support, allowing us to concentrate fully on delivery.

Our flexibility enables us to seamlessly supply clients with permanent salaried, or interim staff on an hourly or daily rate basis to meet individual needs.

Checked Recruitment specialises in hiring talented professionals across Sales, Operations, Administration, Underwriting, HR, Finance, Projects, Broking, Pricing, Claims and Leadership roles within the Insurance, Underwriting, Wealth and Financial Services sectors.

Our Difference

By conducting a thorough analysis of the market for every project, we create a clear pathway for delivering each search assignment.

Our Company Mapping and Talent Mapping processes provide comprehensive insights into the talent pool, competitor organisations, and industries housing individuals with transferable skills.

Offering More

For more challenging assignments, our research phase can include additional market insights, such as salary benchmarking, current company reputation, talent availability reports, and future talent forecasts.

Once this stage is completed, we can present our findings at a calibration meeting if required, ensuring that all stakeholders are aligned with the search direction to achieve timely and positive outcomes.

Dont Just Take Our Word For It

"My first call to make when I needed strong calibre staff quickly. I always admired his honesty and ability to understand our needs with little guidance"

Integration Manager

"Appreciate you not giving up or going quiet (to work on lower maintenance clients!) in the face of my demanding candidate requirements, and I'm really happy with the hire you got us"

European Director

"Provided that same high level of service ensuring he understands my needs and the needs of the companies he is searching for to ensure the optimum match"

CFO

"Ben is more than a recruitment partner; he goes beyond to build networks based on mutual respect and truly works hard to attract candidates who will be right for an organisation. Dom gives huge energy and commitment to his clients and is a pleasure to work with"

UK HR Manager

"Having taken our brief, my experience has been that Ben shortlists two to three candidates who have the skills, qualifications and experience to fill the role, and we simply have to decide on the person we prefer. I have no hesitation whatsoever in recommending Ben to any organisation looking for a professional and reliable recruitment service"

HR Director

Commitment to Lasting Partnerships

We believe that true success is achieved through the formation of lasting, sustainable partnerships for both the candidates and clients we introduce, as well as the companies we collaborate with.

That's why you will find us honest and transparent in all our dealings, willing to back our work with guarantees.

As a business, we look forward to forming a strong partnership that will enable your organisation to attract and retain the best, most relevant talent available in the market for your organisation.
